

THE CASCADES

WELCOME TO THE CASCADES

Accra's Newest Premium Community

Welcome to Sanbra City, a real estate project spanning 300 acres, on the frontlines of black diasporan real estate investment in Ghana. The city's name, "Sanbra", derived from the Akan word "san bra" meaning "Return", is an invitation to make a sustainable and successful transition to the motherland. Sanbra City's premiere phase, The Cascades, promises 421 units and is strategically positioned within Ghana's nascent green residential building sector- serving as a benchmark to local competitors in the sector. Sanbra City, the return city, hopes to facilitate your smooth transition as you build long-term foundations in Ghana.

ABOUT US

Being phase one of the Sanbra City Development, The Cascades is a 30 acre gated community in Borteyman, Trasacco back gate that provides all the best possibilities in urban living only 15 minute's drive from the Kotoka Airport and next to the All African Games stadium.

Featuring spacious luxury 2-bedroom apartments, 4 bedroom semidetached villas and 5 bedroom detached villas in a modern gated estate with amenities such as a community centre with a pool and sports facilities, bicycle lanes, a grocery mart, shared works spaces, and a nursery, the Cascades ensures a safe and sound environment for your growing family.

Building a
GREEN
Residential Community

Sanbra City is an eco-conscious, deluxe residential project. Designed around your comfort and well-being, it boasts an abundance of rich, green spaces and communal sporting facilities.

An aerial architectural rendering of the Sanbra City development. The image shows a dense grid of modern, multi-story residential buildings with light-colored facades and dark roofs. The buildings are interspersed with green spaces, trees, and pedestrian paths. A central feature is a circular swimming pool surrounded by a paved area. The overall layout is organized and sustainable, with greenery integrated throughout the urban design.

Journey to achieving a
50% Reduction
in Sanbra City's expected
Carbon Footprint

Sanbra City embodies a strong green philosophy focused on sustainability and eco-friendly living that aligns with Ghana's green agenda. Its green efforts contribute to a bigger personal goal towards a 50% reduction in expected carbon footprint by 2030.

The development integrates bicycle lanes to promote eco-conscious transportation and rooftop gardens for small-scale household farming. Its Eco- Park fosters community engagement with nature, while the integration of composting systems encourage waste reduction for a circular economy.

Powered by solar energy, Sanbra City prioritizes renewable resources and employs biodegradable plastic bags in its supermarket, alongside robust recycling initiatives.

By committing to these practices, Sanbra City not only enhances residents' quality of life but also sets a standard for environmentally responsible urban development in Ghana.

- **Bicycle Lanes**
to support eco-friendly travel within Sanbra City.
- **Rooftop Garden**
to facilitate small-scale household farming.
- **Eco-Park**
for a space to commune and engage with nature.
- **Compost to Waste Systems**
for a more circular economy within the estate.
- **Solar Energy Degradable Plastics**
used in community supermarket.
- **Recycling all Plastic Waste**
